Senior Magento Fullstack Developer

We are seeking a highly skilled and experienced Senior Magento Fullstack Developer to join our team. The ideal candidate will have a proven track record of developing and maintaining Magento e-commerce websites, as well as experience with front-end technologies such as HTML, CSS, and JavaScript. The Senior Magento Fullstack Developer will be responsible for leading development projects, mentoring junior developers, and collaborating with cross-functional teams to deliver high-quality solutions. If you are a motivated and talented developer with a passion for e-commerce, we would love to hear from you.

What you'll be doing
- Build efficient, testable and reusable codes.
- Integrate software components and/or Magento addons into a fully functional software system.
- Develop, record and maintain cutting edge web-based Magento/PHP applications.
- Work cross-functionally to convert business needs into technical specifications.
- Ensure HTML, CSS, LESS, Knockout and shared JavaScript is valid and consistent across applications.
- Troubleshoot, test and maintain the core product software and databases to ensure strong optimization and functionality.
- Assist in software development, enhancement, debugging, testing and QA maintenance of the backend application.
- Assist with technical solutions for product features and reliability features.
- Provide solid and reliable documentation on completed work items such as code, concepts, and logic.
- Contribute in all phases of the development lifecycle.

What you'll need to succeed
- 5 to 7 years of Software Development experience
- Experience in these technologies: Magento 2 Platform, PHP, HTML, JavaScript, CSS, LESS, Knockout
- Experience with VueJS / React
- Magento certification will be an added advantage.
- Knowledge of cloud and experience with Magento would be a strong advantage.
- Understanding of Tools: Github, Docker
- Excellent debugging, analytical, problem-solving, and good communication skills
- Passionate in building a new team and creative in suggesting or implementing new solution to all new and existing application.
- Ability to work under pressure and deliver result in a fast-paced environment within tight deadline.
- Experience in developing e-commerce portal.

What we can offer you
