Senior C# Backend Developer

Want to empower businesses through digital transformation?

Dukkantek, a revolutionary store management platform, launched in January 2021.
Our goal is to develop and evolve groceries stores. We improve their business thanks to a digital transformation. We provide end to end technology solutions that improve all their processes.

About The Role

As **a Senior C# Backend developer** responsible for building C# applications, including anything from back-end services and APIs. Your primary responsibilities will be to design and develop applications, new features, and to coordinate with the rest of the team working on different layers of the infrastructure. You will be using DDD architecture and developing unit testing for the APIs that you will create.

Also, you will be working directly with a front-end Team to put in common the work of the different teams.
Therefore, a commitment to collaborative problem solving, sophisticated design, and quality product is essential.
Dukkantek's environment encourages mentoring, knowledge sharing and career growth.

What you will bring to Dukkantek

- 5+ years of professional experience in software development
- C#, with a good knowledge of its ecosystems
- Experience with the .NET framework and .NET Core 5.0
- Experience with DDD and clean architecture
- Experience with creating application modules
- Experience with creating microservices solutions
- Implementing automated testing platforms and unit tests
- Experience using EF Core as database provider
- Familiar with various design and architectural patterns
- Understanding fundamental design principles behind a scalable application
- Creating database schemas that represent and support business processes

The Engineering values that guide us

Dukkantek developers work with speed and efficiency to deliver the highest quality of work. We are looking for someone who is passionate about their future job, and ready to work on exciting projects. You are creative and you know how to solve problems. You must be comfortable working as part of a team while taking the initiative on providing new innovations.
We teach and support each other in order to be the most powerful team possible.
If you are looking for a place to advance your career, enhance your skill set, and build connections around the globe, Dukkantek is right for you.
